

Proven[®]
SEED

VT500G

VT 500 G is a high-yielding Genuity[®] Roundup Ready[®] canola hybrid from Proven[®] Seed that offers unrivalled standability. The ability to cut higher, faster and more efficiently provides benefits that extend to the bin and increase profitability. VT 500 G has set a new standard for lodging resistance. Number one in standability across the Prairies, VT 500 G matures more evenly and swaths better, leaving more standing stubble to anchor the windrow and swaths that are easier to pick up.

HIGHLIGHTS

- World class standability (1.2) for harvest ease
- Strong yields
- Resistant to blackleg and fusarium wilt

YIELD	97% of DEKALB [®] 74-44 BL
DISEASE PACKAGE	R rating for blackleg; R rating for fusarium wilt
STANDABILITY	World class rating of 1.2
DAYS TO FLOWER	46.9 days; later than DEKALB 74-44 BL (45.2 days)
DAYS TO MATURITY	94.9 days; comparable to DEKALB 74-44 BL (94.2 days)
HEIGHT	127 cm; taller than DEKALB 74-44 BL (116 cm)

Source: 2014 Nutrien Ag Solutions Local Performance Checks – 15 trials across Western Canada, 30 replicates
LSD = 2.7% Standability rating: 1 – 5, 5 = flat

World class standability of VT 500 G
