

NEW

CDC Hughes VB

CDC Hughes VB is the newest addition to the Proven® Seed lineup of CWRS wheat. Shorter straw and partial solid stems have given CDC Hughes VB a leading edge in standability. With excellent yield potential, high test weight and a sound disease package, CDC Hughes VB is sure to impress.

HIGHLIGHTS

- One of the highest yielding VB (midge tolerant) CWRS wheats on the market
- Good overall resistance to all rusts and smut
- Excellent standability
- Good protein

YIELD	102% of Carberry
DISEASE PACKAGE	MR for stem/leaf/stripe rust, MR for loose smut, I for fusarium head blight
LODGING	2.1 (Very good)
MATURITY	1 day earlier than Carberry
HEIGHT	86 cm; similar to Carberry

Source: 2016-2018 Nutrien Ag Solutions Local Performance Checks Data; 18 locations, 168 replicates
