

# CDC Vivid

Best fit for short season durum areas. CDC Vivid has a strong, moderately short straw which allows production on the higher moisture, cooler northern durum areas. CDC Vivid holds its protein potential even under wetter conditions.

## HIGHLIGHTS

- Resistant to stem and leaf rust
- Excellent standability
- Higher protein potential in colder geographies
- Holds quality
- Early durum variety

<b>YIELD</b>	100% of Strongfield
<b>DISEASE PACKAGE</b>	Resistant to Stem and Leaf Rust
<b>LODGING</b>	2.7; better than Strongfield
<b>MATURITY</b>	Same days as Strongfield
<b>HEIGHT</b>	86 cm; similar to Strongfield
