

NEW

Oreana

Oreana, from the same breeding program that developed Xena, is a short stature, strong strawed variety which is well suited to high input operations and manured soils. This two-row rough awned barley would be a good fit for feedlot operations due to its high test weight and plump kernels.

HIGHLIGHTS

- Highest yield and test weight
- MR to spotted net blotch and R to various smuts
- Short stature
- Excellent for high-input operations

YIELD	114% of AC Metcalfe
DISEASE PACKAGE	Strong against various smuts and spotted net blotch
LODGING*	2.9 (Very Good), much better than AC Metcalfe
MATURITY	1.6 days later than AC Metcalfe
HEIGHT	70 cm; significantly shorter than AC Metcalfe
