

PV530G

Growing high-performing canola hybrids shouldn't be complex. PV 530 G is a yield stable Genuity® Roundup Ready® canola hybrid with medium maturity and excellent standability to make it easier for producers to put more bushels in the bin.

HIGHLIGHTS

- High-yielding
- Early maturity for a mid-season hybrid
- Excellent standability for harvest ease

YIELD	102% of DEKALB® 74-44 BL ¹
DISEASE PACKAGE	Strong MR rating for blackleg; R for fusarium wilt
STANDABILITY	Good rating of 2.1
DAYS TO FLOWER	45.7 days; slightly later than DEKALB 74-44 BL (44.3 days) ²
DAYS TO MATURITY	93.9 days; later than DEKALB 74-44 BL (93.1 days) ²
HEIGHT	112 cm; taller than DEKALB 74-44 BL (107 cm) ²

¹2013 Canola Council of Canada Performance Trials

²Source: 2015-2016 Nutrien Ag Solutions Local Performance Checks – 31 trials across Western Canada, 22 sites, 93 replicates
Standability rating: 1 – 5, 5 = flat
