

PV61079RIB

PV 61079 RIB is a early flowering VT Double Pro® RIB Complete® corn hybrid that exhibits consistent performance across multiple environments and growing conditions. This high performing 79 Corn Relative Maturity (CRM) hybrid is an exciting addition to the Proven® Seed lineup. Fast to dry down, it's an ideal grain corn for Manitoba's Red River Valley. Top-end yield and strong stalks make this hybrid strong enough to handle Western Canada's tough growing conditions.

HIGHLIGHTS

- Very early flowering with rapid grain dry down for maturity
- Performs well in tough conditions
- Nice top-end yield
- Optimum planting in medium target populations
- Not recommended for planting on corn stubble

| | |
|------------------------|---|
| YIELD | High yield potential; 119% of Dekalb® 23-17 RIB <i>(adjusted to 15.5% moisture content)</i> |
| MATURITY | 2250 Corn Heat Units (79 CRM) |
| DISEASE PACKAGE | Good Northern Leaf Blight resistance; average Goss's Wilt tolerance |
| STALK STRENGTH | Excellent greensnap rating; good stalks and root strength |
| HEIGHT | Medium |
