

# PV Ultima

## Top yielding, high quality

Ideal under high moisture or irrigation. PV Ultima has a combination of high yield and winter hardiness. Industry leading alfalfa due to high fall dormancy rating and strong winter survival combined with high yield multiple cut.

- Fall dormancy: 4.4
- Rooting type: Tap Root
- Multifoliate: 80%

## Pest resistance

Resistance to pests is an important selection feature in new alfalfa varieties. Pests reduce the yield, persistence and quality of a forage stand. PV Ultima has been characterized for resistance to several important alfalfa diseases and insect pests.

HIGHLY RESISTANT
Bacterial Wilt
Fusarium Wilt
Verticillium Wilt
Anthraxnose
Phytophthora Root Rot
Aphanomyces Root Rot
RESISTANT
Pea Aphids

## Backed by the Proven Seed Performance Promise®

Invest in Proven Seed and have confidence your investment is protected by the industry's leading guarantee. The Proven Seed Performance Promise gives growers the opportunity to replant forage plantings at half of the original invoiced cost in the case of failure.

### Coverage under the hps® brand

Developed for our forage seed products, the hps brand is the common seed line from Nutrien Ag Solutions. It provides forage growers with coverage under the best warranty in the industry and the same high-quality standards as our certified seed.

### Quality assurance

When selecting seed lots for our forages, careful consideration is taken to ensure you have the highest level of success possible. Proven Seed forages, including Master Blends and hps-branded varieties, conform to the rigid purity standards of less than 10 weed seeds per 25g.
