

# CDC *Titanium VB*

The first midge tolerant CWRS from Proven® Seed, CDC Titanium VB matures earlier, stands well and resists fusarium head blight better than any midge tolerant wheat in its class. Exceptional protein potential and its ability to resist weathering make CDC Titanium VB a worthy choice for a wheat rotation.

## HIGHLIGHTS

- High yield and excellent protein potential with heavy bushel weight
- Recommended for high midge forecast areas in Western Canada
- Excellent resistance to stripe rusts
- Early maturing
- Moderate resistance to fusarium head blight (FHB)

<b>YIELD</b>	100% of Carberry
<b>DISEASE PACKAGE</b>	Excellent resistance to stripe and leaf rust (R); MR to FHB
<b>LODGING</b>	Fair
<b>MATURITY</b>	Mid
<b>HEIGHT</b>	+5 cm than Carberry
