

Oreana

Oreana, from the same breeding program that developed Xena, is a short stature, strong strawed variety which is well suited to high input operations and manured soils. This two-row rough awned barley would be a good fit for feedlot operations due to its high test weight and plump kernels.

HIGHLIGHTS

- High yield with superior test weight
- Short stature for improved straw manageability
- Excellent for high-input operations

YIELD	112% of AC Metcalfe
DISEASE PACKAGE	Susceptible to Fusarium Head Blight (FHB)
LODGING*	2.9 (Very Good), much better than AC Metcalfe
MATURITY	Mid-Late
HEIGHT	-10 cm from AC Metcalfe
