

PV761™

Introducing PV 761™, a new extremely high yielding TruFlex™ canola with Roundup Ready® Technology allowing for a wider spray window and application rate flexibility. The improved pod integrity allows the option for straight cutting and provides the ultimate flexibility at harvest time. This high-yielding hybrid is suitable all growing zones of Western Canada.

HIGHLIGHTS

- TruFlex™
- Harvest management
- Blackleg resistance
- High-yielding

YIELD	105.4% of PV 780 TC
DISEASE PACKAGE	R rating for blackleg and fusarium wilt
STANDABILITY	Excellent; 2
MATURITY	+1.4
POD SHATTER	Equivalent to DK 75-65 RR
HEIGHT (cm)	+5.0

2020 Nutrien Ag Solutions Local Performance Checks (11 locations, 33 replicates)
Standability: 1-5 (5=flat)
